SUMMARY:

I'm a Front End Developer skilled in designing and implementing scalable web applications, utilizing a versatile toolkit of technologies and frameworks. Dedicated to problem-solving and continuous learning to deliver high-quality solutions. Effective communicator and team work committed to collaborative project success.

SKILLS:

Languages: Python, HTML, CSS, JavaScript, MySQL

Technologies & Frameworks: Bootstrap, VS Code

Familiar: C++, Angular

PROJECTS:

Spotify Clone

- Developed a Spotify clone using HTML and CSS, replicating its UI and design within the Visual studio code environment.
- It contains Sidebar, Music player controls etc. Included content sections like playlists and album covers. Integrated interactive features such as play/pause buttons and mainly used flex-box property. Overcame challenges in achieving pixel-perfect accuracy for a responsive website
- Tech Stacks - HTML, CSS

EXPERIENCE:

ASGK Technology, Bhopal

March 2022 - April 2022

Key responsibilities:

- Consult with the management team to make Login and Signup page.
- Analyzed excel sheet to make task allocation page.
- Tech Stacks - HTML, CSS

Nighwan Technology Pvt. Ltd.

Jan 2024

Key responsibilities:

- As part of my 1 month internship in web development, I undertook a project (Taja-Tokari) to design and develop a e-commerce website using HTML, CSS, and Angular.
- Implemented responsive web design techniques to ensure optimal viewing and interaction across various devices and screen sizes. Leveraged Angular framework to build dynamic and interactive components, such as product listings, Pop-up, and user authentication forms and Dashboard.
- Tech Stacks - HTML, CSS, Angular

EDUCATION:

Lakshmi Narain College of Technology, Bhopal
